Fund performance

The Assenagon Balanced EquiVol ended the month with a performance of 1.69%. The equity portfolio contributed 0.86% (hedged in EUR) and the volatility strategy contributed 0.84%.

The equity portfolio has an average ESG-Rating of A, an improvement of 5.3% compared to the global stock market based on the ESG score. The carbon footprint is currently at 61 tonnes of CO₂ emissions per USD 1 million in revenue, 34.6% lower than the global stock market.

The equity portfolio currently consists of 786 positions and the dividend yield is 1.70%. The equity portfolio is allocated in the following regions: 72% in the US, 16% in Europe, 6% in Japan and 5% in other developed countries.

Last month, the volatility strategy had an average investment ratio of approximately 266%. At the end of the month, the investment ratio stood at 279%. If the long volatilities rise by 1 volatility percentage point relatively to the corresponding short index volatilities, this results in a performance contribution of approx. 2.79%.

Investment objective

The Assenagon Balanced EquiVol aims to generate a positive return in the medium term by investing in equity and volatility markets.

Investment strategy

In order to achieve the investment objective, the fund combines an equity strategy, as well as a volatility strategy. In the medium term, a balanced weighting between both strategies is targeted. The equity strategy invests systematically in global equity markets based on market capitalisation. ESG criteria are actively taken into account in the investment process, particularly with regard to improving the ESG scores and significantly reducing the carbon footprint compared to the overall market. The volatility strategy uses volatility as a source of return and aims to achieve positive returns particularly in market phases with increased volatility. The fund is actively managed and is not linked to a benchmark.

With regards to LSEG Lipper, the following applies:

The LSEG Lipper Fund Awards, granted annually, highlight funds and fund companies that have excelled in delivering consistently strong risk-adjusted performance relative to their peers.

The LSEG Lipper Fund Awards are based on the Lipper Leader for Consistent Return rating, which is an objective, quantitative, risk-adjusted performance measure calculated over 36, 60 and 120 months. The fund with the highest Lipper Leader for Consistent Return (Effective Return) value in each eligible classification wins the LSEG Lipper Fund Award. For more information, see lipperfundawards.com. Although LSEG Lipper makes reasonable efforts to ensure the accuracy and reliability of the data used to calculate the awards, their accuracy is not guaranteed.
